

Should we partner to bridge this gap?

Webility's focus is on bridging the gap:

- Preventing needless absence
- Improving medical outcomes
- Improving service to workers
- Reducing lost work days/100 FTEs
- Reducing total costs/population
- Creating a shared vision & language
- Fostering teamwork, cooperation
- Increasing information flow
- Less negativity, more satisfaction

Services

Consulting & Educational Services

- See right-hand panel

Services to Individuals

- Early Injury Assistance
- Early Satisfaction Surveys
- Maze-Masters

On-line Education

“Talking About Ability to Work”

3 versions of this brief course teach basic concepts of why and specifically how to prevent needless work disability, each from the perspective of a different audience:

- For Physicians and Other Health Care Providers – “Disability Prevention for Treating Clinicians”
- For Claims and Case Managers – “Basic Disability Management”
- For Employers – “Supervisor’s Guide to Managing Ill and Injured Employees in the Workplace”

“MDG 101: How to Use MDG Guidelines and Disability Durations”

Offered in conjunction with Reed Group

- For Medical Episode Managers
- For Treating Clinicians

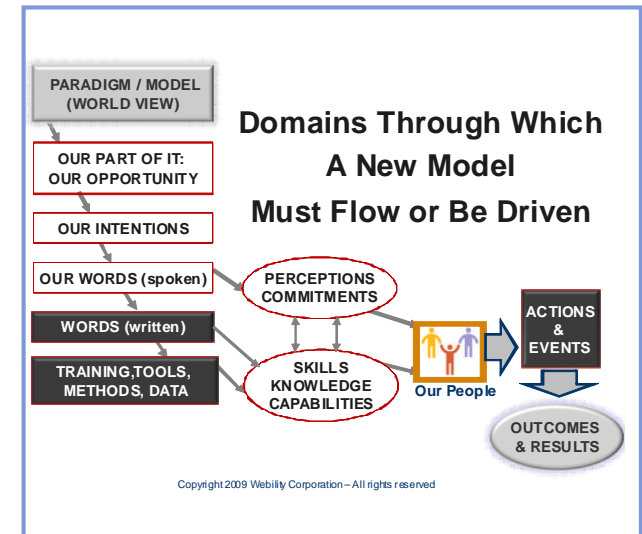

“California Workers’ Comp Today”

Offered in conjunction with Coventry Workers Comp Services

- For Treating Clinicians

Mission

Webility serves as a catalyst for positive change in absence management, workers’ compensation & disability benefits programs & systems.

Consulting & Training Services

Management & Operational Consulting – Quality and outcomes improvement

New product / service development, implementation and pilot testing

Strategic clinical consulting

Support for communications and educational Initiatives

Training program management services

On-site & virtual workshops & webinars

Want to improve something?

(We've partnered with clients on all of these.)

- **Improve workforce availability** by instilling the new work disability prevention model in your organization. (**Webility's management consulting services**)
- **Consistently get episodes off on the right track** by setting up a program to educate and address the reasonable concerns of newly injured employees; identify issues needing attention at the same time. (**Early Injury Assistance**)
- **Identify individual cases needing attention** and monitor program and vendor performance by surveying newly injured employees. (**Early Satisfaction Surveys**)
- Provide a structured educational and coaching program to **employees who have gotten lost in the healthcare & benefits system** that identifies and resolves biopsychosocial issues keeping them stuck. (**Maze-Masters**)
- **Educate key physicians** to whom you send patients. (**Webility's on-line courses and training program management services**)
- **Teach your staff** how to assess situations and reduce duration of absence in medical episodes. (**Workshops and on-line courses**).
- Develop and implement a **multi-disciplinary high risk claim review** and management process. (**Clinical consulting**).
- Implement a process to **upgrade the value of IMEs** in order to maximize their impact on claim outcomes. (**Management consulting**).
